Atty Dkt No. 81100112 / FMC 1694 PUS1

**Amendments to the Drawings:**

The attached sheet of drawings includes changes to Fig. 1. This sheet, which only includes Fig. 1, replaces the original sheet including Fig. 1. The arrangement of the features associated with reference numerals 20, 22, 26, 30, 32 and 34 have been rearranged in the replacement sheet to properly illustrate the functionality of these features. In addition, the prior art label has been removed within the replacement sheet.

**Remarks**

The Applicants have submitted this amendment to rearrange a number of features and to remove the prior art label from Figure 1. The Applicants respectfully submit that none of these amendments effect or influence the scope or patentability of the allowed claims. These amendments merely set forth the proper orientation of the noted features. The removal of the prior art label is also believed to be appropriate as the Applicants submit that Figure 1 is not prior art. The previous amendment to include the prior art label was made merely to expedite prosecution and was not intended to admit that those features shown in Figure 1 were prior art for the pending application.

The Examiner is invited to contact the undersigned should the Examiner find the foregoing remarks insufficient to enter the amendments associated with this paper.

Respectfully submitted,

Franco Leonardi
